## Introduction

BHdental was founded by a team of highly skilled medical and orthodontic engineers bringing vast knowledge and experience, coupled with engineering novelty to the dental care market.

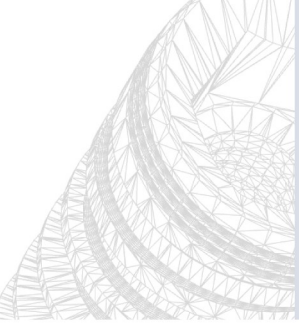

BHdental is committed to quality management and it is the company's goal to provide top of the line dental implants and prosthetic devices to meet the needs of dental clinicians.

The combination of both unique technology and excellent practice culture enables BHdental to deliver exceptionally clean titanium-made implants with optimal surface morphology, thus guaranteeing best bone grip fixation.

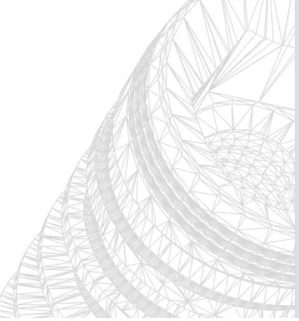

BHdental implants are ANMAT-approved for the Argentinean market and are completing registration and regulatory procedures in several other markets.

BHdental offers high quality dental implants, prosthetic products, and surgical accessories optimizing the dental implant practice – making patient-experience better.
